Energy data, devices, installers, homeowners and B2B/B2C journeys

PROFESSIONAL EXPERIENCE

Sungrow Europe

Munich · Jul 2022–Present

Product Designer (official title: UX/UI Designer)

- Design and improve live mobile and desktop interfaces for iSolarCloud, commissioning, energy-storage and EV-charging workflows.
- Turn production, consumption, battery, tariff, earnings and device data into clearer navigation, information hierarchy, interactions and system states.
- Create user flows, wireframes, interactive prototypes, interface specifications and reusable Figma patterns; refine decisions with Product and Engineering.
- Co-led moderated evaluation with eight installers and homeowners across Germany, Belgium and Italy; served as primary interviewer and translated findings into mobile iteration priorities.
- Led interviews with six EV owners across Germany, the Netherlands and the UK, uncovering needs around setup, automation, cost transparency and control.
- Collaborate with Design, Product, Engineering and Service stakeholders across Europe and China to balance user needs, product intent and implementation constraints.
